PROFILE INFO

I am a Full Stack Developer and Data Analyst who builds websites and extracts valuable insights from data. Proficient in developing user-friendly web interfaces, contributing to backend systems, and using data to drive meaningful results. I enjoy learning new technologies and constantly seek better ways to improve user experience and performance.

EDUCATION

SRISHANMUGHA COLLEGE OF ENGINEERING AND TECHNOLOGY **2021-2025**
B.Tech - Artificial Intelligence and Data Science
CGPA-8.17/10

SKILLS

Programming Languages : HTML, CSS, JavaScript, Python.
Frameworks : React.js, Node.js, FastAPI.
Database : MySQL, NoSQL.
Tools : VS Code, MS Excel, Postman, Git, GitHub, Power BI, Figma, Canva.

WORK EXPERIENCE

Full Stack Developer Intern – OVN Technology (2 months)

- Gained practical experience in end-to-end web development using technologies like React, Node.js, and FastAPI. Collaborated with the team on building scalable, user-friendly applications and optimized API performance.

INTERNSHIP & EXPERIENCES

Python FullStack Development - Training Program ,Bangalore

2024-2025

- Finished a 6-month Python Full Stack Development course with practical experience in backend and frontend development, live coding, and database integration with MySQL.

PROJECT WORK

AgriTech Nexus – Agriculture Marketplace Web App

- AgriTech Nexus is an online platform that connects farmers directly with buyers, removing middlemen.
- It ensures fair pricing, transparency, and real-time communication between users.
- Built using React.js and Firebase for smooth performance and live updates.

Job Portal Web Application

- Developed a dynamic job portal connecting job seekers and employers with a user-friendly interface.
- Implemented job posting, search, and application features for efficient recruitment management.
